High-quality education has always been of value; today it remains an important asset all over the globe. The level of development of the country is directly dependent on the level of scientific cognition of the nature and the society, as well as on the broad use of scientific achievements in engineering and technology. Thus the need for specialists with experience in research will only grow in the years to come.

We invite all researchers interested in the mysteries of the Universe and the organic and inorganic nature, the development of technology, economic and social spheres of life, to pursue their doctoral studies at Ural Federal University. Being one of the leading Russian universities in terms of research activities, Ural Federal University possesses all necessary facilities for doctoral students to pursue their studies in such fields as Natural Sciences, Mathematics, Engineering, Human Sciences, and Economics. Scientific advisors working with doctoral students have broad experience of working in the leading universities of the world.

Vladimir Kruzhaev,
UrFU Vice-rector for Research
Academic activities of the Institute of Public Administration and Entrepreneurship are of interdisciplinary character and cover the following research areas: sociology, economics and management, political sciences. Each research area covers a broad spectrum of social, communicative, managerial problems related to the development of economic, political, state and socio-cultural systems. The staff of the Institute includes more than 30 doctoral degree holders, 90 candidates of sciences and 20 young scientists. Research activities of our lecturers are supported by grants provided by different foundations and companies. The Institute provides funding and resources for a broad range of research activities initiated by its staff members. Researchers present the results of their research at international and national conferences, publish articles in Russian and foreign periodicals with high ratings. The Institute supports research groups engaged in the analysis of different aspects of the development of regional economy, social communities, political processes and institutes.

Since 1997 the Institute supports the publication of the journal “University Management: Practice and Analysis” devoted to different aspects of university management. The journal has a high impact-factor in the Russian Quotation Index. The IPAE supports young researchers, in particular, within the frames of activities of the Young Researchers Council. Candidate and doctoral theses are prepared under the supervision of the IPAE professors. We invite all people interested in social and economic sciences to join our doctoral program at the IPAE. Heads of doctoral programs have an experience of working at the leading international universities.

Dr. Alexey Kluyev,
Director of the Institute
UrFU Institute of Public Administration and Entrepreneurship was formed on the basis of two academic units: the Institute of Management and Business and the Faculty of Public Relations and Advertising.

The Institute of Management and Business was founded in 1997 to train managerial personnel and provide consultation for various organizations. Today there are more than 2000 students; a lot of managers upgrade their professional skills and undergo refresher courses.

The Faculty of Public Relations and Advertising was founded in 1998 on the basis of the idea integrated communications reflecting modern professional standards and considering a real market situation in region as the foundation of curriculum concept.

Today's mission of the Institute is providing the modernization process by training a new generation of leaders and specialists of public administration, social service and business, supporting the work of government bodies, enterprises, institutions and research organizations by consultations, development of modern communication, management and social technologies.

Many graduates of our Institute successfully work in the spheres of public administration, business management or entrepreneurship.
UrFU Institute of Public Administration and Entrepreneurship offers a wide range of Doctoral Programs in the fields of Sociology, Economics and Political Science. In this brochure, you will find a brief description of the Doctoral Programs of the IPAЕ, along with the information about the Thesis Advisors.

**We offer:**
- 3 year Doctoral Programs.
- Accommodation in a University dormitory.
- The possibility to be employed as a researcher in the group of your thesis advisor.
- Free Russian language courses.
- The possibility to defend the Candidate of Science* thesis or an UrFU PhD thesis.

*The first doctoral degree in Russia (Kandidat Nauk). It is gained after 3 to 5 years at a postgraduate school. The qualification requirements include mandatory publications in peer reviewed journals and approval on the Federal government level.

**Entry requirements:**
- Master’s Degree in a field related to the field of Doctoral Studies.
- B2 level of English or Russian.
- Interview.

**For further information, please contact:**
Anna Bagirova,
Professor, Deputy Director for Research and Innovations
a.p.bagirova@urfu.ru
DOCTORAL PROGRAMS

INSTITUTIONAL ECONOMICS

Department of Management Theory and Innovations

The program is designed to train specialists in the field of economic theory for carrying out the fundamental and applied research on institutional modeling of economic systems at the company level and regional level. The objects of research are manufacturing firms, universities, scientific organizations, regional authorities.

Research interests:
- The transaction design of economic institutions of science.
- The institutions of governance of hybrid (network) organizations.
- Simulation of the optimal set of public good.

Main publications:

Dr. Evgeny Popov
Professor, Honored Scientist of the Russian Federation
Member of the Russian Academy of Sciences
popov@prm.uran.ru
ECONOMICS

Department of Management Theory and Innovations
The fields studied in this program are technological development, regional economics and industrial policy.

Research interests:
- Technological development.
- Regional economics.
- Industrial policy.

Main publications:

Dr. Victoria Akberdina
Professor, Head, Department of Management Theory and Innovations
Head of the Group on Economic Problems of Branch Markets, Ural Branch of the Russian Academy of Sciences
Victoria. akberdina@urfu.ru
HUMAN CAPITAL RESEARCH

Department of Sociology and Public Administration Technologies
The program includes both theoretical and practical courses in human capital study, its development in different spheres (such as family, education, professional activity). Students obtain economic, sociological, political knowledge necessary for studying a broad spectrum of human capital development determinants.

Research interests:
- Labour economics.
- Sociology of labour.
- Family research.
- Demographical processes and their determinants.
- Mixed methods.
- Human capital development.

Main publications:
SOCIETY

Department of Sociology and Public Administration Technologies
The fields studied in this program are general theories of sociology, sociology of education, sociology of social time, theory of social community.

Dr. Garold Zborovsky
Professor
g.e.zborovsky@urfu.ru

Research interests:
• General theories of sociology.
• Sociology of education.
• Sociology of social time.
• Theory of social community.

Main publications:
The main research directions are:
- The role of local institutional environment for the economic and innovative development.
- State development strategies and policies aimed at building a competitive knowledge-based economy.
- The impact of informal institutions on competitiveness.
- Competitiveness of companies and knowledge create strategies.

Research interests:
- Socio-cultural factors of economic growth and technological progress.
- Role of informal institutions on development.
- Design of effective economic development institutions taking into account social and cultural parameters.

Main publications:
POLITICAL SCIENCE

Department of Public Relations Management
The program focuses on the study of the behavior of private businesses when operating in the public sphere. The students study how businesses respond to non-governmental challenges to their market behavior such as pressure from private activists and negative media coverage. Our students analyze the strategies that businesses pursue to actively influence the government institutions – legislatures, bureaucracies, and courts – that set the ‘rules of the game’ under which businesses compete. The program is taught using a combination of case studies and theoretical frameworks that examine how business managers approach nonmarket challenges.

Research interests:
• GR.
• Business Strategy in the Public Sphere.
• Political process and Institutions.
• Russian politics.
• Political corruption, lobbying.

Main publications:
• Political development of the Russian Far East, Japan, “Political development at the Pacific Rim” 1993.
• The Lobbyist’s Dilemma, Russia, Chita University Publishing House, 2010.
• Corruption in modern Russia, monograph, Russia, UrFU Publishing House, 2014.

Dr. Natalya Menshenina
Professor of Political Science
n.n.menshenina@urfu.ru
SUSTAINABLE DEVELOPMENT

The program is focused on the investigation of economic, social and environmental aspects of local communities’ sustainable development both in urban and rural areas. Another important aspect of this program is researching of intersectoral cooperation principles and activities according to local, national and international sustainable development agendas.

Research interests:
- Theory of organization.
- Sustainable development.

Main publications:

Entry requirements:
- Basic knowledge in sustainable development and supply chain management.

Dr. Alexander Yashin
PhD in Economics,
Associate Professor
Deputy Director on
Education of Institute of
Public Administration and
Entrepreneurship
a.a.yashin@urfu.ru
LOGISTICS AND SUPPLY CHAIN MANAGEMENT

Students in the program gain knowledge in the theoretical and practical areas of logistics and supply chain management. They acquire the conceptual skills and methodological tools necessary to design and conduct independent research in such spheres and successfully prepare the PhD thesis.

Research interests:
• Logistics.
• Supply chain management.

Main publications:

Entry requirements:
• Basic knowledge in logistics and supply chain management.

Dr. Alexander Yashin
PhD in Economics,
Associate Professor
Deputy Director on
Education of the Institute of
Public Administration and
Entrepreneurship
a.a.yashin@urfu.ru
SOCIO-CULTURAL FACTORS OF ADAPTATION OF MIGRANTS FROM OTHER COUNTRIES

Department of Integrated Marketing Communications and Branding
The program is based on a sociological approach to analyzing contemporary migration flows. Understanding the migration as a social process that reflects the interaction between the conflicting released, receiving and migrant community. It requires consideration of not only economic factors, but also the study of cultural aspects of adaptation of migrants.

The main research areas:
• The problems of interethnic tolerance.
• Communication aspects of inter-ethnic cooperation.
• The issue of migrants’ identity building from other countries.
• Problems of migrants’ acculturation from other nationalities.
• The problems of adaptation of migrants’ children.

Research interests:
• Socio-cultural factors of migrants’ adaptation.
• Gender-sensitive adaptation of migrants.
• Specific adaptation of migrant workers.

Main publications:
INSTITUTE OF HUMANITIES AND ARTS
Institute of Humanities and Arts (IHA) supports a vast and flexible academic structure which enables researchers to achieve advanced results. Research is conducted in 10 integrated fields: linguistics, Russian history, journalism, Russian language, cultural studies, history of arts, studies in literature, classics, philosophy and mass media. In addition, 5 research collectives are awarded the status of the leading scientific schools by the Academic Board of UrFU. The staff of the Institute includes 160 candidates of sciences and 70 professors with doctor of science degree.

Each department of the Institute occupies leading position in respective academic field. IHA is promoting the interdisciplinary research, striving to achieve essential synergy both in science and education.

Heads of the IHA doctoral programs have diverse experience both in conducting top-class research and in working with the international academic centers.

Moreover, IHA is the leader among national research centers of arts and humanities in terms of governmental financial support for research projects. The overall funding for fundamental and applied research of IHA projects is steadily growing, allowing us to actively involve leading researchers from abroad. Most recently, one of the IHA laboratories received the Grant of the Government of the Russian Federation to support a large-scale research project supervised by Marie-Pierre Rey of University Paris I Pantheon-Sorbonne.

Do you want to study Russia’s culture, history and language on a really high level? We invite you to become a member of the team of successful researchers at IHA and to join our doctoral programs.

See you in Ekaterinburg!

Dr. Dmitry Bugrov
Director of the Institute
UrFU Institute of Humanities and Arts is comprised of 5 faculties:
- Faculty of Philology.
- Faculty of History.
- Faculty of Journalism.
- Faculty of Art History and Cultural Studies.
- Faculty of Education in the Humanities for Engineering and Technology Students.

The Institute is the leading research and educational center in the sphere of humanities in the Urals and Western Siberia. The institute staff consists of renowned scholars from various fields: Linguistics, Russian Language and Literature, History of Russia, Mass Media, Cultural Studies and History of Arts, Anthropology, Design and Tourism.

The extensive international cooperation promotes high-level, interdisciplinary research at the IHA. The Institute participates in the students exchange programs with the universities of France, United Kingdom, Germany, Hungary and Poland. The IHA also provides short- and mid-term employment for the researchers from abroad, in order to increase the international research cooperation.

The Institute has cutting-edge research infrastructure including 6 research laboratories, the International Center of Russian History, and the Center of Contemporary Culture. In addition, the IHA publishes 4 research journals. The research is focused upon various aspects of Russian culture, history and language.
UrFU Institute of Humanities and Arts offers a wide range of Doctoral Programs in the fields of History, Language and Literary Studies, History of Arts and Culture, as well as Media Studies. In this brochure, you will find a brief description of the faculties, laboratories and programs, along with the information about the thesis advisors.

**We offer:**
- 4 year Doctoral Programs.
- Accommodation in a University dormitory.
- The possibility to be employed as a researcher in the laboratory / research center.
- Free Russian language courses.
- The possibility to defend the Candidate of Science* thesis or an UrFU PhD thesis.

*The first doctoral degree in Russia (Kandidat Nauk). It is gained after 3 to 5 years in a postgraduate school. The qualification requirements include mandatory publications in peer reviewed journals and approval on the Federal government level.

**Entry requirements:**
- Master’s Degree in a field related to the field of Doctoral Studies.
- Intermediate (B1 or B2) level of English or Russian.
- Interview.

**For further information, please contact:**
Julia Zapariy,
Deputy Director for Research and Innovations
julia.zapariy@mail.ru
Faculty of Education in the Humanities for Engineering and Technology Students is one of the leading centers of modern educational and scientific technologies in the sphere of humanities. The Faculty trains qualified specialists for economics, social sphere and culture. Students of the Faculty study on Bachelor and Master programs such as “Design”, “Human Resources Management”, “Publishing business”, “Service”, “Applied Ethics” on both theoretical and practical levels. Students acquire skills necessary for conducting research in these fields and applying their results in practice.

The Faculty has several interdisciplinary scientific and educational Centers, among them the scientific group “Open City: from traditional approach of investigation towards innovation projecting” and the Interuniversity Center for Research and Teaching of Cultural Studies.

DOCTORAL PROGRAMS

Department of Cultural Studies and Design
The program is aimed at studying the philosophy of the Russian culture and analyzing the process of forming the quality of the life culture in the neoindustrial society.

Research interests:
• Fundamental and applied research in the fields of Philosophy, Cultural Studies, History of Philosophy, Social Philosophy, Geopolitics, Epistemology, Dialectic logic.

Main publications:
• How to guarantee the security of Russia in the global world. Ekaterinburg: Ural ed., 2008.

Dr. Stanislav Nekrasov
Professor
Nekrasov-ural@yandex.ru
OPEN CITY: FROM THEORETICAL CONCEPTS TO INNOVATIVE DESIGN

Department of Cultural Studies and Design

The program is aimed at studying the theory of design and architecture. Special emphasis will be made on innovative design of contemporary cities.

Research interests:

Main publications:

- Souvenir it’s a serious matter: the social and communicative analysis of souvenir (with a co-author), 2009.
- From modernism to neo-rationalism: the creative approaches of the architects in the XX–XXI century, 2013.
- Use of virtual mapping to effectively organize the project activities of students at the university // Procedia – social and behavioral sciences, 2015 (with co-author Larionova), in print.
- Category’s analysis and operational project capacity method of transformation in design // OP Conference Series, 2015, Scopus; (with co-author Obednina), in print.

Dr. Tatiana Bystrova
Professor of Cultural Studies and Design

Draby27@yandex.ru
PHILOSOPHY

Department of Philosophy
The program includes the study of different issues of humanitarian cognition and epistemology.

Dr. Vyacheslav Medvedev
Associate Professor, PhD
mvaphil@ya.ru

Research interests:
• Epistemology.
• Philosophy and methodology of science.

Main publications:
• On the Trends of Methodological Culture of Thinking Development // Russian Studies in Philosophy. 2010. № 2. ISSN: 0042-8744.
HISTORY OF RUSSIA

Department of History of Science and Technology

The program is aimed at studying the social and economic history of Urals, the industrial history and the industrial heritage.

Research interests:
- History of the industry and the industrial heritage of the Urals.

Main publications:
- Posibilidades de desarrollo del turismo industrial en Rusia y en la región de los Urales Development prospects of industrial tourism in Russia And in Ural Region// La fábrica, paradigma de la modernidad A fábrica, paradigma da modernidade The factory, the paradigm of modernity/ VII Congresso DOCOMOMO Ibérico IVth ISCR/ docomomo INTERNATIONAL SEMINAR/ Fundación DOCOMOMO Ibérico documentación y conservación de la arquitectura y del urbanismo del movimiento moderno/ Oviedo 14-17/04/2010 Facultad de Geología. P. 53–55.
HTTP://bg.sutr.ru/journals_n/1378693841.pdf

Dr. Vladimir Zapariy
Professor of Russian History, Member of the Special Council of the Russian Academy of Sciences on the Problems of Russian and Foreign Economic History. Russia’s national representative in the International Committee for the Conservation of Industrial Heritage
vvzap@mail.ru
Research interests:
- Philosophy of dialogue, applied ethics, the Eastern philosophy and culture.

Main publications:
HISTORY OF RUSSIA

Department of Russian History
The program focuses on the social and political aspects of Russian history during the first half of the XXth century.

Research interests:
• Russia in the First World War, the Social and Cultural History of Russia and Urals in the second part of the 19th – beginning of the 20th century.

Main publications:

Dr. Olga Porshneva
Professor of Russian History, Member of the Russian Association for the First World War Studies and the Russian Association of Intellectual History
o.s.porshneva@urfu.ru
PHILOSOPHY

Department of Philosophy
The program includes the study of the history of Russian philosophy, as well as the analysis of the West European non-classical philosophy.

Research interests:
- History of Russian and West European non-classical philosophy, philosophical problems of social sciences and humanities.

Main publications:
- Russian variations for the Nietzsche’s project of culture // Ural Federal University Journal, Series 3 Social and political Sciences. 2012. № 3 (106).
- Interpretation of the ethical by I. Kant and F. Nietzsche: The difference of metaphysical grounds // Proceedings of the Murmansk State Technical University. V. 17, № 4. 2014.
About the Faculty

The Faculty of Philology is an internationally recognized center of language and literature studies. Its diversified academic staff includes world-renowned experts, scholars and professors ready to impart their fundamental knowledge on linguistic theory and the related applied fields, such as ethno-, socio-, onto-, and psycho-linguistics, onomastics, cultural linguistics etc. The curricular offerings in Russian and Foreign literature studies comprise a wide chronological range of subjects – from folkloristics to specific features of modern literary process – and include inquiries into the evolution of aesthetic consciousness in literature, narratology and sociology of literature, popular literature studies, and so on.

The Faculty is headed by Dr. Valery Goodov,

DOCTORAL PROGRAMS

THE RUSSIAN LANGUAGE

Department of Rhetoric and Stylistics
The program focuses on rhetoric and political semiotics of the modern Russian language.

Dr. Olga Mikhailova
PhD, D.Sc., Professor
oamih@ya.ru

Research interests:
• The modern Russian language.
• Actual problems of semantics and pragmatics.
• Rhetoric and political semiotics.
• Lingvocultural aspects of tolerance.
• Russian language and culture of speech.
• Russian language for business communication.

Main publications:
THE RUSSIAN LANGUAGE

Department of Rhetoric and Stylistics
The program is focused on the stylistics of the modern Russian language and the Russian language in the social and cultural environment.

Research interests:
- The modern Russian language.
- Stylistics.
- Lingvocultural studies.
- Interpretation of the text.

Main publications:

Dr. Natalia Kupina
PhD, D.Sc., Professor, Honored Worker of Higher Education of Russian Federation
THE RUSSIAN LANGUAGE

Department of the Russian Language and General Linguistics
The program is aimed at studying the Slavic ethnolinguistics and toponomastics.

Research interests:
• Slavic ethnolinguistics.
• Toponomastics.
• Slavic etymology.
• Semantic reconstruction.
• Russian dialectology.
• Lexicography.

Main publications:

Entry requirements:
• Knowledge of dialectology and ethnolinguistics.
THE RUSSIAN LANGUAGE

Department of the Russian Language and General Linguistics
The program is focused on different theoretical aspects of Russian toponymy, etymology and contactology.

Research interests:
• Toponymastics.
• Etymology.
• Contactology.

Main publications:
  HTTP://onomastics.ru/en/content/2013-%E2%84%962-15-1

Entry requirements:
• Good knowledge of history and interest to the toponymic researches.

Dr. Nadezhda Kabinina
PhD, D.Sc., Professor
nadia.nvlad2010@yandex.ru
The program is based on the study of onomastics, Russian dialectology and finno-ugristics.

Research interests:
• Finno-Ugristics.
• Onomastics (Toponymy of the Ural).
• Etymology.
• Russian dialectology.
• Language and ethnic contacts.

Main publications:

Entry requirements:
• Knowledge in finno-ugristics, onomastics and dialectology; knowledge of Russian language.
THEORY OF LANGUAGE

Department of Modern Russian Language and Applied Linguistics
The aim of the program is to study phonosemantics in the Russian poetry and the methods of philological analysis of the poetic text.

Research interests:
- Phonosemantics in poetry.
- Lexicography, lexical semantics.
- Language faculty.
- Russian poetic linguistic personality.
- Philological analysis of the poetic text, textology.

Main publications:
THEORY OF LANGUAGE

Department of the Modern Russian Language and Applied Linguistics

The program is focused on studying different methods of analysis of the text, as well as subjects pertaining to general and computer lexicography.

Research interests:
- Statistical analysis of the text, general and computer lexicography.
- Applied linguistics, literary text analysis.

Main publications:
The program is focused on the lexicography of Russian and the general theory of ideographic dictionaries of the Russian language.

Research interests:
- Semantics.
- Cognitive science research.
- Linguistics of the text.
- Practical and theoretical lexicography.

Main publications:
- HTTP://elar.urfu.ru/handle/10995/21224
THEORY OF LANGUAGE

Department of the Modern Russian Language and Applied Linguistics
The program is aimed on the study of the semantics and the syntax of the Russian language.

Research interests:
- Semantics.
- Syntax.
- Cognitive linguistics.

Main publications:

Dr. Anna Plotnikova
PhD, D.Sc. Professor
annamp@yandex.ru
About the Faculty

The Faculty of History is an internationally recognized center for historical research and education in the vast Ural and Siberian region. Main topics of current research include modernization and transfer of innovations in Russia, comparative history of Russian regions, social history, historical demography.

Our most important international partners are University Paris-I Pantheon-Sorbonne and University Rennes-2 (France), Lorand Eotvos University (Hungary) and others.

Research interests:
• History of Germany in Modern and Contemporary period.
• Political liberalism in Europe.
• Idea of European integration at the turn of the 20th century.

Main publications:
HISTORY OF RUSSIA

Department of Ethnology and Archeology
This program focuses on the study of religious aspects of Russian history, especially religious and family traditions of the Ural region and indigenous peoples of Siberia.

Research interests:
• Religious studies.
• Historical demography.
• Ethnology.
• Anthropology.

Main publications:

Entry requirements:
• Fluent Russian or English language.
• MA (or its equivalent) in History, Religious studies, Ethnology, Sociology, Demography or English Language.

Dr. Elena Glavatskaya
PhD, D.Sc., Professor
elena.glavatskaya@urfu.ru
HISTORY OF RUSSIA

Department of Documentation and Information Maintenance of Management

The objective of the program is the study of Russian history of the XX\textsuperscript{th} century, using the methods of historical demography. It seeks to study in-depth migration processes and changes in the social structure.

Research interests:
- History of Russia in the XX century.
- Historical demography.
- Study of mass sources and audiovisual sources.

Membership:
- Russian Society of Intellectual History (2012).
- History and Computer Association (since 2014).
- The British French Association for the Study of Russian Culture (2013).
- Canadian Association of Slavists (2014).

Main publications:

Entry requirements:
- Knowledge of Russian modern history, historical demography.
DOCTORAL PROGRAM IN WORLD HISTORY – THE EASTERN MEDITERRANEAN IN THE MIDDLE AGES

Department of Ancient and Medieval History
The program focuses on training specialists in medieval history of the Mediterranean, Byzantine studies, intellectual history, cross-cultural contacts in the West-East frontier area, inter-confessional dialogue in Late Middle Ages.

Research interests:
• Byzantine Studies, Mediterranean Studies, Intellectual History.

Main publications:

Entry requirements:
• Basic knowledge of Old Greek or Latin.
**Research interests:**
- History of Russia XX century.
- Source study of mass sources and audiovisual sources.
- Methods of historical research.

**Membership:**
- History and Computer Association (since 1993).
- Russian society of intellectual history (since 2012).
- The British-French Association for the Study of Russian Culture (2013).

**Main publications:**

**Entry requirements:**
- Knowledge of Russian modern history, source studies, methodologies of historical research.
Dr. Anton Mokhov
PhD, D. Sc., Professor
rkb2004@yandex.ru
a.s.mokhov@urfu.ru

Department of Ancient and Medieval History
The program focuses on training specialists in medieval history of the Mediterranean and Byzantine. It includes study of the art of war in antiquity and Middle Ages and the history of military and administrative reforms in Byzantine Empire.

Research interests:
- History of Byzantium.
- History of Later Roman Empire.
- Military and administrative reforms.
- The art of war in antiquity and middle Ages.
- Sigillography.
- Prosopography.

Main publications:
  HTTP://elar.urfu.ru/bitstream/10995/27035/1/Mokhov_monografia_2013.pdf
  HTTP://elar.urfu.ru/bitstream/10995/31294/3/UIV_a_s_mokhov_2013.pdf
HISTORY OF RUSSIA

Department of Russian History
The program is aimed on an in-depth study of the history of modernizing Russia in XVII – XVIII centuries. The students will conduct research on process of introduction of social and political innovations in Russia and interaction of Russia and Europe.

Research interests:
- Russian administrative structures and bureaucracy of early 18th century.
- Reforms of Peter I and their political and social impact upon Russian society.

Main publications:

Entry requirements:
- Basic knowledge of Russian language and culture.

Dr. Dmitry Redin
PhD, D.Sc., Professor,
Head of the Department of History of Russia
volot@mail.ru
WORLD HISTORY

Department of Modern and Contemporary History
The doctoral program includes both theoretical and practical courses in Modern History of Europe. Special emphasis is put on studying military history and diplomatic history.

Research interests:
• The Age of the Napoleonic Wars.
• Foreigners in Russia in 1812.
• Wales in the Middle Ages.

Main publications:
The Faculty of Journalism is the leading center for interdisciplinary research and education in the field of media and its impact upon the modern society. The educational process at the Faculty of Journalism is aimed at forming the practical knowledge of mass media and respective means and strategies of communications – TV, journals, newspapers, as well as social media.

Dr. Boris Lozovsky
Director of the Faculty

DOCTORAL PROGRAM ON JOURNALISM

Department of History of Journalism

PhD program on media promoted by the department of history of journalism is focused on the investigation of mass communications and their convergence with contemporary politics both nationally and internationally. The students get involved in learning the theoretic frameworks of researching issues and writing a thesis.

Research interests:
- History of Russian journalism since 1917.
- Journalism within the system of political culture.
- Mass media and information security in Russian society.

Main publications:
M. Friedman

Modernity

Traditionalism / Primitivism

Postmodernity
UrFU Institute of Social and Political Sciences is comprised of five faculties: Faculty of International Relations, Faculty of Political Science and Sociology, Faculty of Philosophy, Faculty of Psychology, and Faculty of Linguistics and Professional Communication in Foreign Languages. The Institute of Social and Political Sciences has an extensive network of research laboratories. This network includes:

- Laboratories established by the leading academic departments that bring together education and science. More detailed information on these labs can be obtained on the websites of the departments.

- Ural Interregional Institute of Social Sciences (Ural center for advanced studies and education - UCASE). The center was established in 2001 and has formed part of the Institute of Social and Political Sciences as an independent research unit. Currently the Institute to a large extent sets the priority trends of social and political studies in the Ural region.

- Laboratory for Comparative Studies in Toleration and Recognition (established with the support of UrFU Development Programme) is designed to be an international project. The Laboratory is headed by Professor Martin Van Gelderen, Director of Lichtenberg-Kolleg, University of Goettingen, Germany.

In 2013 the “expert forum” was established at the Institute of Social and Political Sciences for the approbation of the results of scientific research-annual international ISPS convent “Modernization and Multiple Modernities”.

Dr. Maksim Khomyakov, Director of the Institute
UrFU Institute of Social and Political Sciences is comprised of 5 faculties:

- Faculty of International Relations is the main academic school training specialists in the spheres of international relations, area studies, oriental studies and linguistics in the Ural Region. Students of the department have access to studying a wide range of foreign languages.

- Faculty of Political Science and Sociology is young and dynamically developing. Students and faculty there do not try to find simplistic answers but study in an integrated manners such problems as: “society governance”, “society development laws”, “future of Russia and the role of a person in this future” etc.

- Faculty of Philosophy is the oldest faculty of the Institute of Social and Political Sciences successfully combining academic traditions of classical liberal education with advanced methods of training. In addition to traditional scientific directions the Faculty of Philosophy offers such modern and sought-after areas of study as “Sociolinguistics”, “Esthetics: art-business”, “Social governance” and others.

- Faculty of Psychology. Graduates of the Faculty can carry out teaching and research activities in different fields of psychology, work for higher and vocational education institutions, administrative establishments, healthcare system, banking system, foundations and social movements.

- Faculty of Linguistics and Professional Communication in Foreign Languages. The history of the faculty started in 1998. In 2010 the direction of “Linguistics” was established with the support of Moscow State Linguistic University.
UrFU Institute of Social and Political Sciences offers:

- 3 year Doctoral Programs.
- Accommodation in a University dormitory.
- The possibility to be employed as a researcher in the group of your thesis advisor.
- Free Russian language courses.
- The possibility to defend the Candidate of Science* theses or an UrFU PhD thesis.

*The first doctoral degree in Russia (Kandidat Nauk). It is gained after 3 years in a post-graduate school. The qualification requirements include mandatory publications in peer reviewed journals and approval on the Federal government level.

Entry requirements:

- Master’s Degree in a field related to the field of Doctoral Studies.
- Intermediate level of English or Russian.
- Interview.

For further information, please contact:
Alexey Loginov,
Director of the Faculty of Philosophy
loginov.ispn@gmail.com
Faculty of Psychology

Studying psychology helps to solve a range of the most important problems of a person: self-conception and understanding other people, discovering inner harmony, increasing your competence in interpersonal and business communication, expanding opportunities of personal and professional development, helping other people in stress and complex situations.

Graduates of the Faculty can carry out teaching and research activities in different fields of psychology, work for higher and vocational education institutions, administrative establishments, healthcare system, banking system, foundations and social movements.
DOCTORAL PROGRAMS

DEVELOPMENTAL COGNITIVE NEUROSCIENCE

Clinical Psychology and Psychophysiology Department
The program focuses on studying the risk factors for children autism and ADHD using multidisciplinary approach. The research protocol was developed in the framework of the European project. One of the goals of this project is to reveal early EEG and behavioral markers for autism using longitudinal approach. The PhD students will use the state of the art methods for investigating children’s brain and cognitive development.

Research interests:
• Developmental cognitive neuroscience.
• Child Neuropsychology.
• Neuroimaging.

Main publications:

Dr. Sergey Kiselev
Head of Clinical Psychology and Psychophysiology Department, Head of Laboratory for Brain and Neurocognitive Development, Ural Federal University
The Faculty of International Relations is the main academic school training specialists in the spheres of international relations, area studies, oriental studies and linguistics in the Ural Region. Students of the faculty have access to studying a wide range of foreign languages: Chinese, Turkish, Japanese, Korean, Arab, Czech, Polish, Serbian, Portuguese, Italian, Spanish, German and French.

Students and graduates of the faculty work for diplomatic missions and international offices of major banks, enterprises and travel agencies. The range of career opportunities includes as well working as interpreters and managers in such companies as Renova, Enel S.p.A., General Electric, university lecturers, heads of transport and logistic companies.
DOCTORAL PROGRAMS

RUSSIAN POLITICAL HISTORY
(The end of XIX – the end of XX centuries)

Department of Oriental Studies
The program is devoted to controversial aspects of Russian political history. Special characteristics of Russian political culture and Russian political parties are at the center of this program. Features of Russian conservatism, liberalism and radicalism are also analyzed at this program.

Research interests:
- Russian political culture.
- Russian political parties.
- Russian liberalism.
- Russian conservatism.
- Russian social-democracy.
- History of Russian terrorism.

Main publications:

Dr. Alexey Antoshin
Professor
(Department of Oriental Studies)
HISTORY OF RUSSIAN EMIGRATION

Department of Oriental Studies
The program focuses on the study of key questions of Russian diaspora. Main tendencies of the history of Russian emigration (especially in the XX century) are at the center of this program. It also pays attention to special characteristics of Russian emigration and immigration legislation.

Research interests:
- Russian diaspora.
- Russian emigration legislation.
- Russian immigration legislation.

Main publications:

Dr. Alexey Antoshin
Professor
(Department of Oriental Studies)
RUSSIA AND AFRICA

Department of Oriental Studies
The program’s aim is the research of different aspects of Russian-African contacts. The main attention is paid to contemporary situation in Russian-African economic cooperation and its historical roots. Different cultural and humanitarian contacts are also at the center of this program.

Research interests:
• Political cooperation.
• Economic cooperation.
• Military-technical cooperation.
• Humanitarian contacts.

Main publications:
• The gold of Sennar: Egypt and Sudan in perception by Urals golden-mining master in the XIX century. Cairo, 2014 (in Arabic).

Dr. Alexey Antoshin
Professor
(Department of Oriental Studies)
The Faculty of Philosophy is the oldest academic unit of the Institute of Social and Political Sciences successfully combining academic traditions of classical liberal education with advanced methods of training. In addition to traditional scientific directions the Faculty of Philosophy offers such modern and sought-after areas of study as “Sociolinguistics”, “Esthetics: art-business”, “Social governance” and others.

Graduates of the Faculty of Philosophy have a wide range of career opportunities: they work for such organizations as the Legislative Assembly of the Sverdlovsk Region, National Centre for Contemporary Art etc; many of them are engaged in business, teaching and research.
DOCTORAL PROGRAMS

SOCIAL THEORY
SOCIAL AND CULTURAL ANALYSIS

Department of Social Philosophy
The PhD programs in Social Theory and Social and Cultural Analysis provide rigorous interdisciplinary training that teaches students to conduct scholarly research and expertise, both within and outside of academia. They draw on advanced research practices and traditions in social theory, philosophy, sociological and anthropological thought. Students are encouraged to pursue research in one of four thematic specializations: (1) Globalization and its local varieties; (2) Mega-events; (3) Social memory and representation; (4) Neoliberalism and neopatrimonialism.

Research interests:
- Social theory and social anthropology.
- Urban theory and neoliberal urban restructuring.
- Post-Soviet social and cultural processes and statecraft.
- Connections between global tendencies and local practices (for example, mega-events organization, creative industries development, cultural memory evolution etc.).

Main publications:
- Manipulating Neoliberal Rhetoric: Clientelism in the Run-up to International Summits in Russia // European Urban and Regional Studies. 2015. № 2. DOI: 10.1177/0969776413512139

Dr. Elena Trubina
Professor Of Social Theory and Philosophy at the Institute of Social and Political Studies, Department of Philosophy
Elena.trubina@gmail.com
https://urfu.academia.edu/ElenaTrubina?c_p=t
One of the main principles of the institute is adherence to the highest international standards in education and research. It is a tradition to hold presentations, training courses and master classes for the School’s students conducted by leading Russian and international companies – prospective employers for our graduates. Our School works in close cooperation with business partners and government authorities. It is aimed at providing in-depth academic knowledge and good practical skills. GSEM offers a number of elite Bachelor, Master and MBA programs, including Double Degree. Graduate School of Economics and Management has a lot of hope, plans, great and small projects. School’s plans include development of education and research programs, projects with Russian and foreign partners.

Graduate School of Economics and Management of Ural Federal University is one of the leading business school in Russia which is founded on the basis of the Faculty of Economics and Management, the Faculty of Information and Mathematic Technologies and Mathematic Modeling, Business School (Ural State Technical University - all), and the Faculty of Economics, Ural State University. GSEM UrFU offers to its students fundamental theoretical knowledge as well as practical aspects of applied economics and management alongside with profound study of mathematics.

GSEM UrFU is the biggest regional research center in the field of fundamental studies in economics and management and engineering economics studies.

Dr. Dmitry Tolmaschev
Head of Graduate School of Economics and Management
Graduate School of Economics and Management is the largest institute of Ural Federal University. It combines fundamental education and practical application of gained knowledge.

GSEM is an acclaimed center for training specialists in economics and management that operates for the benefit of socio-economic development of the Ural Federal District and biggest employers in postindustrial sectors of national economy.

Graduate School of Economics and Management comprises today 7 faculties, more than 4000 students, 50 PhD candidates and 600 lecturers, among them 288 PhD and 83 doctorate holders.

GSEM UrFU is the largest regional research center in the field of fundamental studies in economics and management and engineering economics studies.

In 2011 GSEM UrFU became a member of European Foundation for Management Development (EFMD) which unites over 750 member organizations from academia, business, public service and consultancy in 81 countries. Nowadays, GSEM prepares its Bachelor Program in International Economics and Business for EPAS accreditation (European Program Accreditation System).
UrFU Graduate School of Economics and Management offers a wide range of Doctoral Programs in the fields of Economics, Mathematics and Informatics. In this brochure, you will find a brief description of programs and faculties.

We offer:
- 4 year Doctoral Programs.
- Accommodation in a University dormitory.
- The possibility to be employed as a researcher in the group of your thesis advisor.
- Free Russian language courses.
- The possibility to defend the Candidate of Science* theses or an UrFU PhD thesis.

*The first doctoral degree in Russia (Kandidat Nauk). It is gained after 3 to 5 years in a postgraduate school. The qualification requirements include mandatory publications in peer reviewed journals and approval on the Federal government level.

Entry requirements:
- Master’s Degree in a field related to the field of Doctoral Studies.
- B2 level of English or Russian.
- Interview.

For further information, please contact:
Alexander Nepp,
Deputy Head of Graduate School of Economics and Management
anepp@urfu.ru
Graduates of its departments receive fundamental basic training in economics and modern information and mathematical technologies. They can work in any branches of science, industry and business.

The teaching staff of the Faculty conducts research activities in a wide range of areas of optimum control theory and its applications to the problems of management of real economic and technical systems, including the studies of economic growth models; the development of game models of competition between large-scale projects that take into account the uncertainty and risks; the development of models of international market quotas for carbon dioxide emissions into the atmosphere; the list of research areas covered by the Faculty is not limited by the fields mentioned above.

The Faculty maintains close contacts with the academic institutes (IMM UrB RAS, Institute of Economics UrB RAS, Steklov Mathematical Institute of RAS), universities of Ekaterinburg, leading Russian educational institutions. Speaking about interaction with the partner enterprises, it is necessary to highlight the collaboration with the financial and economic institutions: banks, insurance companies, tax authorities and industrial enterprises of the city and region.

MATHEMATICAL AND INSTRUMENTAL METHODS OF ECONOMICS

Department of Systems Analysis and Decision-Making
Within the frames of the program it is planned to develop the mathematical apparatus of economic studies, the methods of its application and embedding into the instrumental means in order to increase the level of reasonableness of managerial decisions at all levels of economics, as well as to improve the information technologies for solving economic problems and their effective introduction in new economic software.

Research interests:

MATHEMATICAL MODELING, NUMERICAL METHODS AND PROGRAM COMPLEXES

Department of Control Systems Modeling

The program is devoted to the development of fundamental principles and use of mathematical modeling, numerical methods and program complexes for solving fundamental and applied research problems in economics, technology and other areas. All works prepared within the frames of the program are to contain the original results from three areas: mathematical modeling, numerical methods and program complexes.

Research interests:
- Boundary-initial problems; nonlinear partial differential equations; series, heat transfer; permafrost; Stefan problem.

Main publications:

Entry requirements:
- Knowledge in computational mathematics and in theory of partial differential equations.
- Programming skills in C++.
MATHEMATICAL AND INSTRUMENTAL METHODS OF ECONOMICS

Department of Control Systems Modeling
Within the frames of the program it is planned to develop the mathematical apparatus of economic studies, the methods of its application and embedding into the instrumental means in order to increase the level of reasonableness of managerial decisions at all levels of economics, as well as to improve the information technologies for solving economic problems and their effective introduction in new economic software.

Research interests:

ECONOMIC THEORY

The Laboratory for International and Regional Economics

Research within the program focuses on the next topics: health systems, healthcare economics, environmental economics and political economy. You will be available to participate at scientific events with leading international and Russian economists.

Research interests:
- Health economics.
- Environmental economics.
- General equilibrium theory.
- Public goods.

Main publications:

Dr. Hans Wiesmeth
Prof., Academic Head of the Laboratory for International and Regional Economics
hans.wiesmeth@tu-dresden.de
Research activity of the Faculty of Economics of GSEM is concentrated mainly in the fields of International Economics, International Strategies of Business, Corporate and Social Responsibility of companies, Migration processes.

Scientific skills and strong background of the staff members allows carrying out high-quality research. Some of the faculty members have PhD degree of European Universities.

**The Faculty of Economics consists of three departments:**
- International Economics.
- Econometrics and Statistics.

INTERNATIONAL BUSINESS STRATEGIES. NATIONAL MODELS OF CORPORATE SOCIAL RESPONSIBILITY. IMPACT-BASED SUSTAINABLE DEVELOPMENT

Department of International Economics
Students majoring in international business study the interface between the competitive advantages of countries, the role of national governments and supranational organizations, and the strategies of international firms as well as its corporate responsibility. The program is interdisciplinary. It draws upon the writings of scholars in economics, management, organization theory, science and technology studies, and social science. Students have opportunities to choose elective courses from disciplines such as finance, marketing and management science.

Research interests:
- International strategy of multinational companies and sustainable development.
- International models of corporate social responsibility.
- Strategic corporate and university responsibility.
- Shared Value Creation: multistakeholder and cross-cultural approach.

Main publications:

Dr. Zhanna Belyaeva
PhD (Econ), Associate Professor
zh.s.belyaeva@urfu.ru
INTERNATIONAL ECONOMICS, INTERNATIONAL RELATIONS, MIGRATION PROCESSES

Department of International Economics

The studies focus on the problems of quantitative and qualitative assessment of migration flows and the problems of migrants’ adaptation including cross-cultural ones. Special attention is paid to skilled migrants and educational migration. Students will be able to take part in scientific conferences with publication of proceedings on the topic.

Research interests:
- International relations.
- Migration processes and adaptation of migrants.
- Cross-cultural communication.

Main publications:
Department of International Economics

The program is devoted to the development of theoretical and practical foundations for the transformations of economic and social institutions, the development of models for defining the influence of external and internal factors on the economic systems, the determination of the influence of risks on the economic systems. On the basis of the developed models the optimum parameters of economic systems are defined. One of the main systems under consideration is the pension system. The works developed within the frames of the program are based on the progressive works of economic scientists and are approved on the broad statistical data.

Research interests:
- Institutional economics.
- Risk management.
- Insure system.
- Pension systems.
