**A wide range of further and business education programs**

# Faculties

Faculty of Architecture

Faculty of Bioeconomics and Bioinformatics

Faculty of Geomatics and Spatial Development

Faculty of Land Planning and Land Use

Faculty of Law

Institute of Intensive Training

Faculty of Pre-University Training

# Areas of Expertise

**Architecture**

**Design**

**Ecology and  
Natural  
Resources  
Management**

**Geodesics and  
Remote  
Sensing**

**Land Use  
Planning and  
Cadastral**

**Landscape  
Architecture**

**Law**

**Management**

**Technosphere  
Security**

# Key Research Areas

Theoretical and methodological basics of land management, geodesy and cadastral registration

Urban and spatial planning

Digital mapping, GIS and remote sensing using UAS and LiDAR

Land economics and legal regulation of land use

Agrotechnology and environmental monitoring

Architecture and landscape design

Innovative IT solutions in the field of land management

# International Cooperation

> **35** international partner institutions from > **15** countries

**International mobility programs** for students and faculty members
